

OCTOBER 2018

news alert

30 Oct deadline

Don't be left hanging

You need to get on the China list!

With a big crop looking likely for 2019, the ability to supply larger-sized fruit to China becomes more valuable for growers than ever before.

So, if you want to be part of AVOCO's China market harvest plans, you need to get in touch with your packer and complete export registration for China no later than Tuesday 30th October. The opportunity is there for the taking.
